DEFEATED BY HYPNOTISM.

The Printers Had Extraordi-
nary Forces to Contend
Against.

A Glittering Delicacy of Hockey—
Many Brilliant Plays on the Part
of the Types.

Under the fierce glare of a million incan-
descent lamps, spurred on by the wild
screams of frenzied thousands in the
galleries, thrilled and inspired (we pause
for breath) by the recollection of many
fierce and glorious combats on the base-
ball diamond, 14 doughty puckeasers
of Belleville, struggled stoutly last night
for victory. The game was, of course, an
easy thing for the Printers, all things
through, and a few unfortunate errors on
their part, together with another reason
which we will presently state, account for
the fact that at the end of the game the
score stood 3 to 2 in favor of the Clothiers.
The types skated more gracefully, batted
harder, kicked the puck more frequently,
set down with considerable more momen-
tum and altogether displayed a better
knowledge of the more scientific and
mysterious points of the game. The main
cause of their so-called "defeat" was the
fact that the rubber displayed an uncon-
querable and unquenchable aversion to
Jimmy Langley, and firmly declined to
be driven to that part of the ice where he
held sway, thus scathing from the "Print-
ers" the laurels which their superior
science and beauty had placed almost with-
out their grasp. To-day there are grave
hints that the game may be protested on
the ground that Mr. Langley hypnotized
the puck. The matter certainly calls for
thorough investigation, and we trust that
our friends will not rest until it is sifted to
the bottom. The Printers must not stand
idly by and see the fair, staid banner of
their noble craft trailed through the
mire at the wheels of the triumphal chariot
of a sixth-rate hockey organization like the
so-called "Clothing Club." (We're hopping
mad and we don't care who knows it.)
The puck was kicked off at eight o'clock
and the fun started with a rush. The
Clothingers were evidently nonplussed when
they perceived the splendid aggregation of
handsome and intelligent mankind against
them. They were to contend, so to give
them a little encouragement the Print-
ers allowed them to score two goals.
Charged by their success, the Clothingers
played with a reckless abandon which evi-
dently pleased the spectators, but their
weakness of character and lack of skill
in the combination play and gave an exhibi-
tion of rapid succession. Two or three more
were just about to be scored when the
whistle blew for half time. After receiv-
ing the congratulations of many friends,
the teams resumed play. The Clothingers
defect in the ice, the Printers combination
play was so effective as in the first half.
Encouraged by this the Clothingers man-
aged to kick the puck into the net, win-
ning the game 3 to 2. The Clothingers
at times was thrilling. Before attending
the game, our sporting critic was subject
to freckles, he is now a perfect snow-
man, more serious than locomotor axon. (At
giers, Hong Kong and Bancroft papers
ple the copy.)

of the company referred to. The Board
was unable to advise on so fine a legal
point, and Dr. Bryce forwarded a copy of

To Rob a Church.

From appearance it was apparent that
an attempt was made at an early hour on
Monday morning to effect an entrance in-
to Emmanuel Church. The footprints of
two persons were to be seen leading to a
window in the rear of the edifice, and an
effort had apparently been made to raise
the window, but without success.

curiously against the fence. The fence was
only doing its duty, both and your
malevolent attempts to get even with it
were unworthy of you.

Jimmy Langley, the veteran sportsman,
in goal for the Clothiers, made many good
stops, but pending the investigation alluded
to above, we decline to give him all the
credit he deserves. It is asserted that
Jimmy was the widest pair of pants in
the store, and thus prevented the puck
from gliding past him.

MR. EATON'S RECITAL

A Varied and Interesting Programme,
Which pleased a Large and
Appreciative Audience.

No doubt the severe weather last night
kept many away from the opera house, but
those who did attend have every reason to
congratulate themselves for the artistic
realization of Mr. Frank Eaton and Mrs.
Eaton, aided in no small degree by the
well-high perfect playing of Miss Mabel
Johnston and Miss Lillian F. Mills, was
a source of unalloyed pleasure to all who
heard them. Mr. Eaton's programme was
varied enough to please everybody. There
were love songs, martial songs, melodies
overflowing with pathos, and after Mr.
Eaton had seemingly run the gamut of all
the emotions, he sang "Danny Deever,"
and sent his audience home with a "creepy"
sensation on them, and the gruesome re-
frain ringing in their ears: "They're hang-
ing Danny Deever in the morning." It
would be hard to name Mr. Eaton's best
effort. His numbers were all rendered
with such faultless taste and delicacy of
expression that in every instance his last
number seemed his best. "Little Boy
Blue" was sung with a tender pathos
which filled many hearts with thoughts
of bygone happy memories, while the old
favorite "The Green Tree" was rendered
with a thrilling martial dash and fire. Mr.
Eaton's voice shows evidence of careful
cultivation since he took his departure
from nature with many and natural,
and he joins the "Voice of the" with
the "Voice of the" in a manner quite
faultless, but, truth to tell, Mr. Eaton
was not his greatest asset. He was not
to please all his hearers last night. Mrs.
Grant's two numbers were beautifully ren-
dered, both gaining her recall. Miss
Johnston played Mozart's "Nocturne" in
music in charming style, while Miss Lil-
lian F. Mills fully sustained her high re-
putation as one of Belleville's ablest
instrumentalists of classical music. Prof.
Dingle played the accompaniments with
his accustomed delicacy and beauty of
expression. Especially was this noticeable
in Dingle's "May Morning." Following
was the

Vital Statistics.

The registration of births, marriages and
deaths with the City Clerk for the month
of January was a heavy one, especially in
the number of deaths, which totalled up to
22, three of whom died in the township of
Thurlow, adjacent to the city. There were
15 births and 12 marriages. The causes
of death were as follows: Pneumonia,
1; septicæmia, 1; chronic bronchitis,
1; still born, 2; consumption, 1;
apendicitis, 1; diphtheria, 1; heart dis-
ease, 2; disease of the liver, 1; drow-
ning, 1; apoplexy, 2; kidney disease, 1;
typhoid, 1; paralysis, 1; influenza, 1; menin-
gitis, 1.

A Worthy Object.

The Ladies' Benevolent Society of St.
Michael's Church gave an entertainment
last evening at the C.M.B.A. hall, which
proved to be exceedingly interesting in its
character. The attendance was large, and
deservedly so, as the proceeds are to be
devoted to the poor. A good programme
of vocal and instrumental music was ren-
dered, after which refreshments were
served. Dancing was then indulged in by
the greater number present until a late
hour, Mr. J. R. Grove being master of
ceremonies.

WEDDING BELLS.

Miss Clara Leslie Wedded to Mr.
James Hill.

A very pleasant event took place at the
residence of Adam Leslie, Esq., 4th con-
of Tyendinago, on Wednesday evening,
Jan. 26th, when his eldest daughter, Clara,
was married to Mr. James Hill, of the same
township. The Rev. D. O. McArthur, of
Melrose, tied the nuptial knot. Miss
Leona Leslie, sister of the bride, and Mr.
Harry Hill, brother of the groom, support-
ed the happy couple. The bride was at-
tired in white organdie trimmed with rib-
bons, and carried a bouquet of white car-
nations and amaranth. The bridesmaid
was dressed in cream to match and carried a
bouquet of pink carnations and amaranth.
Miss Maud Leslie, youngest sister of the
bride, played the wedding march when the
bride and party were taking their places. A
wedding supper and games were enjoyed
until midnight, when the young couple de-
parted for their future home amidst showers
of rice and the best wishes of the guests
present. It is needless to say that the
bride was popular in the neighborhood, as
was shown by the large number of costly
presents which she received. We wish the
young couple bon voyage through life.

TARTE VS. BLAIR.

It is evident that there is no love existing between the Hon. Joseph Israel Tarte, Minister of Public Works, and the Hon. Andrew G. Blair, Minister of Railways and Canals. During the last session of Parliament, Mr. Blair used all his eloquence and exerted all his influence as a Minister in the Committee of Railways and Canals, and succeeded in carrying through that Committee, the then famous Kettle River Railway scheme, against all the power and influence that could be brought to bear by Sir Van Horne, who appeared before and addressed the Committee against the bill as being antagonistic to the interests of the Canadian Pacific Railway, of which he is President.

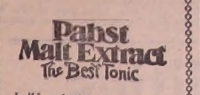

When the adoption of the Report recommending the passage of the Bill granting the Charter came before the House of Commons, the redoubtable Israel was for a champion of the C. P. R. interests, so that we had the spectacle of this loving pair, members of the same Cabinet, arrayed against each other, on a great question of policy, as to whether United States railways should be permitted to run into Canada and tap the trade which would otherwise flow eastward by the Canadian Pacific Railway. It is needless to say that Israel triumphed, and the C. P. R., through him, conquered, though at the expense of poor Blair and his influence.

When it is remembered that this same Mr. Tarte received \$3,000 from Mr. Shaughnessy, the Vice-President of the Canadian Pacific Railway, ostensibly as an advance on printing account, but in reality to assist him in his election, when he contested the County of Hesse, no one will marvel at the interest he took in a Corporation, to which he owed so much. What was the interest of the mining community in the Kettle River and Kootenay Districts to that of the pecuniary benefactors of the Minister of Public Works? Or what cared he for the feelings or reputation of his colleague, provided he could serve his masters, the Canadian Pacific Magnates.

Now, we have further evidence of the weakness of unity between these two gentlemen, even broken in the same Cabinet, and that, too, upon a very important question, the giving of contracts to United States manufacturers. The editorial in La Patrie a short time since indicates clearly the harmony which prevails in the Ottawa Ministry. The Minister of Public Works writes that of the Minister of Railways and Canals:

"Some newspapers blame Mr. Blair for having received the United States. La Patrie does not know what there is in these charges, but let it be well understood that, notwithstanding our well-known sympathies for the Government, we would certainly never approve of the Railway Department ordering work abroad that can be done in the Dominion. The question is to know if the work which Mr. Blair has done in the Dominion. The question is to know if he has done it well and to the advantage of our country. The Minister of Railways and Canals will no doubt give us an explanation on this subject. The ability of our own workmen is admitted on all sides. Are our men not as good as the Americans? If so, why do we import them? This is the point. If, however, the Railway Department has committed an error, we will be the first to regret it, and we will be the first to correct it."

It is to be hoped in this case, as in the other, that when a certain class of men fall out, another class may get their due.

WILL KNOCK AT ST. PETER'S DOOR.

First Month of a Great Religious Ceremony in 1899-1900.

Rome, Feb. 1.—The celebration of a universal jubilee for 100 years has been decreed by the Pope to mark the coming of the 100th anniversary of the birth of St. Peter.

Great plans are being made for a wonderful ceremony in the Vatican, to begin on Christmas Day of 1900. On that day a solemn procession will leave the Vatican and march to the basilica of St. Peter's Church.

There the procession will pause, and the Pope, descending from the sedia statoria, will strike the sacred door of the basilica with a hammer.

The door will open to the knocks and the procession will enter the church with the Pope at its head, holding a cross in his right hand and a candle in his left hand.

From Christmas Day until New Year's

THE IMPERIAL PARLIAMENT.

The Conservatives Hold Power No Matter What.

They Had Only a Single Reason During the Session—How the Parties stood for the Government and for the Opposition—Salisbury Is Safe in Any Event—New Power in the Upper House—Social Functions of Parliament.

London, Feb. 1.—Parliament opened on Feb. 1. During the recess nine elections have been held to fill vacancies created in the House of Commons by death, resignation, succession to office, and appointment to office. In the House of Lords there will also be numerous changes.

In the Commons Sir H. Naylor Layland, Radical, will take the place formerly held by Lord Curzon. This is the only instance where a Conservative is displaced in the entire list. The composition of the House of Commons will, therefore, work out for this session about as follows:

Supporting the Government.
Conservative Unionists 349
Liberal Unionists 45
Total 394

The Opposition.
Radicals 182
Anti-Parliamentaries 71
Parliamentaries 1
Socialist 1
Total 255

Ministerial majority 139

A glance at these figures shows that the Salisbury Ministry is quite safe, no matter what combinations are effected among the various sections of the House of Commons. As a rule the Parliamentists vote with the Ministry, but in the almost insuperable event of the Liberal-Unionists going into the camp of the Radicals and the Irish Nationalists, the Conservative would still have a majority of 1.

In the House of Lords. Five new peers are entitled to take their seats in the Upper House. Lord Kitchener of Khartoum is one of them. The others are Sir Philip Currie, late ambassador at Constantinople; Sir Henry Hawkins, who, after 53 years' service as one of Her Majesty's judges, has been retired from the bench; Sir Joseph Baily, who for 20 years represented Herefordshire in the House of Commons; and Mr. Robert Gordon, who has also been a member of the Lower Chamber.

Newly-Created Peers. Attention to these newly-created peers there come several others by succession. During the interregnum death has removed the Earl of Mansfield, the Duke of Northumberland, Viscount Lonsdale, Lord Napier, Lord Hensley, Lord Newton, the Marquis of Anglesley, the Earl of Lathom, Earl Ponsonby, the Earl of Wintchester, Lord Vernon, as well as the Lord Chamberlain, Sir Arthur Ellis, formerly secretary to the Prince of Wales, is the new peerage of arms of the House of Lords.

Lord Salisbury will give the usual Queen's speech dinner on the night before the day for the opening of Parliament. On the same evening, at another place, Mr. Arthur Balfour, as Government leader of the House of Commons, will entertain the Speaker, Mr. Gully, and the two younger members of the House, who have been selected as the mover and seconder of the Queen's address. There will also be dinners at which leaders of the Opposition will be the guests of honor. Lord Kimberley will entertain the Duke of Devonshire, and Lord Tweedmouth probably another.

SOLUTION AS DISTANT AS EVER.

The Standing of the Dreyfus Case Stated.

Paris, Feb. 1.—The Liberte, which is usually well informed, says: "The decision of the Court of Cassation in the Dreyfus affair will be the evidence of the existence of a trial, but that neither Comte Esterhazy nor Lieut. Col. Henry could answer to the culpability revealed by the evidence."

This statement is all the more significant in that it is made by a pro-Dreyfus paper. The Liberte adds:

"The dependency of the Dreyfus party seems to show that the solution of the problem is as distant as ever. Another feature of the situation is the husband of Comte Esterhazy, who was formerly so depressed. He has now been able to give further evidence, except before the full Court of Cassation."

NO KICKING FOR A YEAR.

Mixed Tribunals Will Govern Egypt for

Cairo, Feb. 1.—All the powers have agreed to a prolongation of the mixed tribunals for a year from to-day.

State Levee in Dublin.

Dublin, Feb. 1.—The first state levee of the season took place yesterday afternoon, and was largely attended. The attendance included the United States charge d'affaires, Mr. Henry White, Mrs. White and their daughter, who are the guests of Earl Cadogan, Lord Lansdowne, and Countess Cadogan. The official representative of the United States in Ireland for the occasion is cordially commended upon as being "a unique and agreeable departure from the customs of the diplomatic corps."

Success of Chinese Rebels.

London, Feb. 1.—The Shanghai correspondent of the Daily Mail writes: "Ten thousand rebels are besieging Suichuan, the third most important city in the Province of Anhui. It is situated on all the northern and central portions of Anhui and at the mercy of the rebels. An Imperial general, while trying to recapture Kuyang, was defeated on Jan. 29, losing 3,000 men."

France After British Cash.

London, Feb. 1.—The St. James' Gazette says the French Government is negotiating with France a loan of £10,000,000 for a loan of \$40,000,000 to \$50,000,000 to be devoted to army and navy purposes. The proposals are looked to in a lukewarm manner.

A Chinese Loan Arranged.

London, Feb. 1.—The Times in its financial article to-day announces that a Chinese loan of £2,000,000 of £1,000,000 has been arranged, unconditionally guaranteed by China, and specially provided for the purpose of the railway, as given Great Britain a pledge that these railways will not be alienated to any foreign power.

from Corunna, Spain, give accounts of the landing there last week of the Zamora regiment from Cuba. The regiment was recruited in Corunna, and included many young men of good families. In June, 1901, it sailed for Cuba, 1,400 strong. Only 300 returned alive.

The Sultan Will Protest.

Cairo, Feb. 1.—The Diplomatic Journal says the Sultan is about to protest to the powers against the British protection system and to reassert Turkish suzerainty over Egypt.

STARVING IN MADRID.

Madrid, Feb. 1.—Thousands of Madrid are thoroughly alarmed over the presence in the city of 10,000 starving soldiers, repatriated from the colonies, and the scarcity of food among the poorer classes generally. Forty thousand beggars are soliciting alms in a city of 600,000 inhabitants; many already have taken the short step between mendicancy and high way robbery, and the situation hourly grows more threatening.

Rioting Is Threatened.

Kington, Jamaica, Feb. 1.—A company of the West India Regiment was embarked yesterday for Barbadoes to reinforce the garrison there, owing to a threatened rioting among the natives. The troops will also be sent from Barbadoes to St. Vincent, where similar trouble is feared, due to the continuance of the widespread distress.

Only 300 Returned Alive.

London, Feb. 1.—Records by mail.

For coughs, colds, bronchitis and all lung and throat troubles, there is no preparation of medicine can compare with Carter's Little Liver Pills. It immediately soothes the most troublesome cough, and by promoting expectoration, removes the mucus which stops up the air tubes which causes difficulty in breathing. The pills relieve the chest, and the throat, and the lungs, and the stomach, and the bowels, and the liver, and the kidneys, and the bladder, and the prostate, and the uterus, and the ovaries, and the vagina, and the rectum, and the anus, and the skin, and the hair, and the nails, and the teeth, and the eyes, and the ears, and the nose, and the mouth, and the throat, and the lungs, and the stomach, A Bad Cough and How It Was
Cured.

TORONTO, ONT.—My whole system was run down. I was weak. I could hardly get around to do my work. I finally began to take Hood's Sassafras, and after using five bottles I found that the cough was better. In fact, I now feel as strong as ever. Miss KILPATRICK, 9 Wellington Avenue.

RESULT OF PROTECTION.

At the last revision of the tariff, the present free trade tariff, taken intentionally blundered in protecting tobacco, by placing a duty on the raw leaf. The result has been an estimated loss by our farmers in Canada of some \$8,000,000 pounds in the western Ontario counties alone during the last season, and if it all goes into consumption it may disarrange the inland revenue receipts, the tax on the Canadian leaf going into manufacture being less than that on the imported article. The tobacco raisers are becoming more industrious than the Government anticipated.

That the kind of blundering the country will appreciate. In every case where the present Government has followed in the wake of the late Government, success has been the result, and whenever an attempt was made to change, failure has followed.

If they have succeeded in encouraging the growth of tobacco in Canada, they have succeeded also in increasing the national debt, and the annual expenditure enormous.

The "Globe" claim that under what they call "Liberal rule," Canada is having a "growing time." This is true as applied to tobacco and equally true as applied to the expenditure of money. Here is some of the "growth":

Increased expenditure.....\$1,800,000
Increased taxes.....1,400,000
Increased debt.....7,500,000

And besides that, we have Tarte, the "Master of the Administration," setting the pace in the same direction, thus:

"We have spent much money since we came into power, say our critics."

"Yes, we have spent much because we have made much."

"And wait till you see next year; we will have made more, and we will have spent more, too."

The people will say this kind of growing is altogether too rapid.

HELP WITH A DOLLAR.

The mortgage indebtedness on the Hospital for Sick Children, Toronto, entails an interest expense of \$2250 each year, a heavy drain on the resources of this great charity. It will be remembered that in a recent issue of this paper the wonderful work of the Hospital was described, together with an appeal from the Trustees, asking that the people of Ontario pay of \$20,000 of the mortgage this year. They had agreed to retire that portion of the mortgage. A generous response has been made, but there is still \$3,000 needed to complete the fund asked for. Over \$22,000 has been paid in, some of it came from the readers of this paper. The charity is provincial and not local. Sick children from every nook and corner of the Province are cared for. The Chairman of the Hospital Trust, J. Ross Robertson, M.P., Toronto, writes: "Is there another man in your town who will help the helpless children with a dollar?" Mr. Robertson says that every gift to a worthy charity bears interest for the donor. Three thousand and single dollars will do the work—will you give one?

SENATE REFORM.

The Toronto Globe tells its readers that "A scheme of Senatorial reform has been sent to the Globe, which includes reduced representation in both Commons and Senate, with 'more permanent laws, which do not require to be amended every year,' the Senate to be a consultative body with reduced salary. Senators to be appointed on the recommendation of all the Judges, the majority of Commencement to be \$500 per year on the Ministerial side and \$400 per year on the Opposition side. The latter recommendation looks like a scheme to secure the Government a majority in perpetuity, so it may be necessary to explain that it is given without prejudice."

The Globe's opinion of the Opposition, that for \$100 each the Government would secure a majority in perpetuity, must have been formed of its knowledge of the value of its friends.

ON THE BOUNDARY QUESTION

Prof. King, Canadian Astronomer, Before the Commission.

American Experts Also Appeared Before the High Joint Body at Washington.

No Chance of a Reciprocity Treaty Unless the \$2 Lumber Duty Is Modified—Senator Tawney, However, Seems to Be Sure of His Advantage.

Washington, Feb. 2.—The Canadian high commission held its usual meeting yesterday, and was followed by the sub-committee on the Alaskan boundary, which held a long meeting and examined several experts.

Prof. King, the Canadian astronomer, and one of his assistants appeared for the Canadian side, while the Americans called in Prof. Fritchard, chief of the coast and geodetic survey, and John McEachern, one of the coast survey topographers, who has spent several years in work along the Alaskan coast.

The survey men had formidable rolls of maps and charts, with large stacks of field books, in which the results of their work had been embodied.

This session of the commission's work is one where the evidence is in such a tangible character that it is thought there will be little difficulty in arriving at an equitable settlement, although it is understood that the commission will not attempt to delineate a hard and fast boundary, but rather lay down the lines along which a satisfactory settlement can be made.

NO CHANCE OF A TREATY

Unless the Lumber and Paper Monopolies Are Set Upon.

Detroit, Feb. 2.—A Washington special to The Evening News says: "If the newspapers of the country do not sit down on the \$2 lumber tariff, the reciprocity treaty with Canada may fail. The \$2 man and the paper tariff appear to have control of the paper tariff to jeopardize the ratification of any treaty that makes concessions on lumber that the Canadian commissioners dare accept. Without concessions on lumber, no treaty can be negotiated, because the Canadians could not expect their Government to ratify it, and they freely say they would not ask it. If the tariff falls, the \$2 man and the paper tariff will have a fair field to rob the lumber consumers and newspapers of the United States for an indefinite period, while the lumbermen and paper manufacturers of Canada will not only shut out of their forests, but also close their markets to all American manufacturers. Congressmen Tawney, representing the \$2 man, says frankly, 'If the treaty depends upon a reduction of the lumber tariff, it must wait. In fact, he feels so sure of the situation that he says the tariff practically alleges that the negotiation of the treaty is already hopeless. If the newspapers, who will be the arbiters, go into the fight all over the country, they can bring the Senate into line. Otherwise Tawney is probably right.'"

MR. HAMBIDGE WAS KILLED.

He Was Father of New York Trust's Great Illustration.

Ingersoll, Feb. 2.—Mr. George Hambidge, of the Ingersoll-Park Company met with an accident at the residence of Mr. William McGrath on Monday night which has resulted fatally. Mr. Hambidge's wife and family are in Toronto visiting relatives, and during their absence he was boarding at Mr. McGrath's. He went to the home for tea at a usual hour, and after supper went upstairs. When going from one of the boarders' rooms to his own he had to pass the stairs, and it is supposed stepped over the landing. He fell to the bottom, striking on his head. He was carried upstairs to his room and a physician was sent for. When the doctor arrived it was found that he was pretty badly shaken up, but his injuries were not thought serious. The people in the house, thinking that he was not seriously hurt, retired at their usual time.

In the morning one of the inmates of the house went to Mr. Hambidge's room, and he was unconscious. The doctor was immediately sent for, but nothing could be done. He never regained consciousness, and passed away at 11 o'clock. The cause of death is given as the rupture of the brain, is given as the cause of his death.

Deceased had been a resident of this town for 10 years, and has been a resident of the Ingersoll-Park Company for over 15 years. He was 50 years of age, and his wife is 45. The great newspaper illustration in New York.

Duck Hunters Begged.

Port Erie, Ont., Feb. 2.—Yesterday morning Officer Griffin of the Ontario Police made a raid on Amherstburg, Ontario, on the lower part of Niagara River and succeeded in capturing Julius Rosen, Charles Boltz and William Boyer, all of Buffalo. They were brought before P. M. James, who fined them \$50 each, amounting to \$150 each, and confiscated the following: Two double-barreled shot guns, one Winchester repeating shotgun, one repeating rifle, about 200 rounds of ammunition and one dozen ducks.

Captain Rogers will not down.

Montreal, Feb. 2.—The stenographer, regarding Hon. Mr. Costigan's prospective entry into the Laurier Cabinet gains before every one. It is now a foregone conclusion that a large section of the Cabinet is for appointing him to the Senate in place of Hon. Michael Ashcroft, but the other section feels that it would be almost impossible to pacify the New Brunswick Liberals if this were done.

They're on His Trail.

Montreal, Feb. 2.—His worship the Mayor stated yesterday that he had found out who the snipers were that offered Aid. Roy notes to the amount of \$600 for a civil favor that he wished to get. The snipers work in the health department. He was acting as a go-between for certain outside parties. It is the Mayor's intention to thoroughly investigate the whole affair.

Hevot in Uruguay.

Montevideo, Feb. 2.—A revolt of the Colorado against Senor Cuestas, Provisional President of Uruguay, has broken out. Two hundred men have landed near Canelo and captured the town.

BELLEVEILLE'S BRILLIANT SON THE SITUATION AT MANILA.

Benjamin Franklin's Paper Tells How Gilbert Parker Became an Author.

Explaining Why he Abandoned the Green Fields of Journalism.

The Philadelphia Saturday Evening Post, the paper founded by Benjamin Franklin, and recently purchased and improved by the Curtis Publishing Company, in a recent issue tells how Gilbert Parker became an author. It will be interesting to Belleville people as an unprejudiced account of our great townsmen's early life. Like most bright boys, young Parker had his career carefully and prayerfully laid out by his parents, and when the time for individual action came he struck out on an entirely different course.

He was educated at Trinity College, Toronto, and then, in obedience to the parental behest, he began to prepare himself for the Episcopal ministry. After spending a few months in theological study, he openly rebelled. He had a natural appetite for literature, and, while pondering what he could do with it, or in it, he was surprised by a call from his college to become lecturer on English Literature. To this post he accepted, till he found that he was not yet on the right track, and then started on a voyage to Australia for his health, and to think.

For several months he travelled among the principal cities, supporting himself by lecturing. Then he was commissioned by the Morning Herald, of Sydney, to visit the South Sea, Sandwich, and other far-off islands, and describe the conditions of life he found there. While in Sydney he dramatized a version of Faust, which was produced at a theatre in that city and met with no great success.

Newspaper work was exceedingly distasteful to him, but his letters to the popular fancy that he was urged to gather them in book form, and his first two and only books of travel, Round the World, and Below the Sun Line, were the result.

He was now an author, and speeded to London to establish himself. "By rare fortune," he said, "I was spared the first terrible experience of the average literary career in London, and I soon made my way into the magazines. When I went to London I possessed a large stock of introduction to editors. Neither of those men have ever accepted a line of my work. Those that gave me encouragement were strangers."

THE LAST SAD RITES.

All That was Mortal of Alex. Stewart Buried Under the Auspices of Belleville Oddfellows.

One of the largest funerals that has been held in this city for some time was that of the late Alexander Stewart, which took place yesterday afternoon. Deceased, who was for years a trusted G. T. M. engineer, was a universal favorite with his mates, and his unimpaired death caused widespread sorrow. For some years he had been a member of the Oddfellows' Society, and the obsequies were conducted under its auspices. There was a large turnout of the members of both Belleville and Mississauga Lodges. The L. O. O. F. Silver Band was also in attendance. At 2.30 services were held at the house of Mr. Benjamin Mayo, Elderessenger, being conducted by the Rev. J. R. Rice, pastor of Blocker street Methodist church. After the usual service music at the residence the cortege was formed and moved off in the following order:

G. T. M. employees on foot.

Citizens on foot.

Citizens in vehicles.

During the progress of the cortege through Front st. that thoroughfare was lined with people. It proceeded to the cemetery, where the remains were placed in the vault, the services being conducted by Rev. J. R. Rice and Rev. A. L. Gean, Grand Chaplain of Ontario, who officiated on behalf of the Society. Upon the casket were placed a number of beautiful floral designs contributed by friends here and at Mississauga, whence the remains were brought.

Frieze and Etoffe Pants, \$1.

50 pairs of heavy frieze pants sold regularly at \$1.25 and \$1.50 per pair to clear at \$1.00 each. Big reduction in all winter goods.—QUICK & ROBERTSON.

The Elevator Purchase.

On Saturday afternoon Aldermen Hanley, Starling and Hungerford made a minute inspection of the elevator which Mr. Corby intended he would purchase from the city, for the purpose of making a valuation. They agreed upon a price, which was subsequently submitted to Mr. Corby, and this gentleman, will at Council meeting this evening give his decision.

Men's Lined Rubbers

Only 45c per pair, regular price 75c. Ladies' on shoes, 50c per pair.—VERMILYON & SONS.

Police Notes.

Since Saturday the police have had a rather quiet time. The only occupants of the cells have been seven tramps, three on Saturday and four on Sunday night.

The Filipinos Have Not Yet Renewed the Attack.

American Cabinet Decide to Instruct Otis to Take Extreme Measures—Agoncillo Files from Washington to Montreal—Statement of the Filipino Junta.

(Specials to the INTELLIGENCER.)

Manila, Feb. 6.—The Filipinos have apparently reached the conclusion that the Americans mean business, as there were no further hostilities last night, and no attempt was made to recover the lost ground. It is possible, however, that they are following the tactics they employed against the Spaniards, and will merely lie off a few days to recuperate their forces before returning to the attack.

WASHINGTON, D. C., Feb. 6.—Instructions will be sent to Major-General Otis today directing him to follow up his victory over the insurgents and to crush the power of Aguinaldo in the Philippines. This decision was reached at a Cabinet meeting at the White House last night. It was further decided, now that Aguinaldo has thrown down the gauntlet, that Lili shall be taken and the islands of the archipelago occupied as rapidly as possible and to the extent that General Otis' forces will permit.

Hong Kong, Feb. 8.—The Filipino Junta here has issued a statement setting forth that the fighting at Manila was only an outpost skirmish, designed to influence the vote in the United States Senate to-day on the peace treaty.

Montreal, Feb. 6 (noon).—Agoncillo, who was at Washington as the representative of Aguinaldo, the leader of the Filipino insurgents, arrived here this morning, having been compelled to fly from the United States owing to the commencement of hostilities between the United States troops and the insurgents. He says Aguinaldo's action in attacking Manila must have been upon great provocation, and he charges the U. S. troops have been conducting themselves in an outrageous manner in Manila. He asserts further that it will take years for the U. S. to conquer the insurgent forces of the Philippine Islands.

MR. CORBY BUYS IT.

The City Elevator Goes for \$6,000.

Mr. Corby's Offer Unanimously Accepted-Ald. Robinson's Decapitation Motion Goes Over.

The members present at last night's meeting of the City Council were: Mayor Johnson, Aldermen Doyle, Hangerford, Starling, La Roche, Doyle, Hanley, Panter, Robinson and Taylor.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS, ETC.

From Miss Gordon of the Hospital, thanking the Council for the resolution passed at the last meeting referring to her work as Matron.

From Mr. W. R. Aylsworth, County Clerk, thanking the Council for the grant of \$100 towards the Fat Cattle Show.

From Mr. R. McHugh, asking Council to sign a new form in reference to the accident policy.

From Mr. H. Corby, offering the city \$8,000 for the elevator and lands adjacent.

COMMITTEE REPORTS.

The Executive Committee report as already published, was read.

On motion the Council went into Committee of the Whole on Reports, Ald. Robinson in the chair.

The communication of Mr. Corby was taken up.

Ald. Hanley said that he, in company with Ald. Starling and Hangerford, had inspected the premises and made an offer to Mr. Corby to sell for \$8,000, but he would only give \$6,000. He was in favor of accepting Mr. Corby's offer, as the building is in a bad state of repair and requires overhauling and the city would have to spend it if not sold and the money would be lost.

He was in favor of the offer made by Mr. Corby, who would improve it and extend the premises.

Ald. Hangerford stated that Mr. Corby assured him that he secured the elevator he would increase it to a capacity of 200,000 bushels. It would be better to give it to Mr. Corby than have it remain idle.

Mr. Corby was not to bargain, but was willing to give \$8,000 for it.

Ald. Doyle thought that the offer by Mr. Corby was a good one and it was fortunate.

The Mayor said the city was fortunate in having a man who offered to sell this property. It was virtually the establishment of a new industry in our midst. It would open up a grain market here.

The elevator had gone to a tenant. Mr. Corby had been asked to purchase the machinery and plant, was virtually won over. An agreement in reference to right of way would be entered into, which would be satisfactory to both the city and Mr. Corby.

Ald. Panter said Mr. Corby had made a fair offer and it should be accepted.

Moved by Ald. Hanley, seconded by Ald. Hangerford, that the offer be accepted by Mr. H. Corby for the elevator property be accepted by this Council, and that the City Solicitor be requested to prepare the necessary deed for the transfer of the property to the purchaser, subject to certain restrictions as may be agreed upon.

The motion carried unanimously.

On motion the Committee rose and reported. The report was received and adopted.

INQUIRIES.

Ald. Starling asked why the hydrant on the corner of John street south and Wharf street had been removed.

In the absence of the Chairman of Fire, Water and Light, no answer was given.

Ald. Robinson's notice of motion re amalgamation of city offices was allowed to stand.

Ald. LaRoche moved, seconded by Ald. Starling, that the Street Surveyor be instructed to replace the hydrant at the corner of John and Wharf streets. The rules were suspended and the motion carried.

Ald. Starling's notice of motion re Water works purchase was allowed to stand over.

Moved by Ald. Robinson, seconded by Ald. Hanley, that the matter of investigating and considering the matter of the purchase of the Belleville Water works and report to this Council be taken up by the Committee.

The rules were suspended and the motion was moved by Ald. Doyle, seconded by Ald. Panter, that the City Engineer be instructed to prepare a plan of the water supply or constructing new works by the corporation.

The rules were asked to be suspended for the passage of the motion, but it was defeated, 5 voting for it and 4 against it.

quitting a two-thirds majority. The motion then asked to have it stand as a notice of motion, which was granted.

The rules were suspended and it was moved by Ald. Doyle, seconded by Ald. Panter, that the City Engineer be instructed to prepare a plan of the water supply or constructing new works by the corporation.

Ald. Hangerford asked if anything had been done in reference to the matter of the purchase of the water works.

Messrs. Marsh and Hetherington re examination from taxation.

An answer was elicited that the matter, with other similar requests, would be attended to shortly.

The Council adjourned.

THE BLOODY PHILIPPINES.

Severe Fighting Around Manila-The Americans Everywhere Victorious.

Aguinaldo's Two Proclamations--Otis' Estimate of the Number Killed.

(Special to the INTELLIGENCER.)

MANILA, Feb. 7.-Late yesterday Gen. Hays' brigade advanced and took the waterworks at Singalong. Four companies of the Nebraska regiment and a part of the Utah battery, with two field guns and two Hotchkiss guns, met the enemy on the hill half a mile out, and a sharp engagement took place in which the Nebraska lost one killed and three wounded. Dr. Young, formerly quartermaster sergeant in the 3rd Artillery, was wounded, captured and brutally murdered. The Filipinos were driven back, retiring in bad order. Gen. Overhiser's brigade advanced and took Foranque, capturing two field guns. They met with no opposition. Gen. McArthur's division advanced without loss, the enemy retiring upon Calocan. The Americans now have a steam line to Malabo and 600 marines, with four Maxim guns have landed at Fleetsbach, north of the city. There was considerable firing from the upper windows of the houses in the native quarters of the city last night, but no casualties have been reported as the result.

Aguinaldo issued two proclamations on Saturday and Sunday. The first declares the Americans opened the fight, and calls upon the Filipinos Congress to suspend the constitution. The second says: "We have fought our ancient oppressors without arms and now trust to God to defend us against the foreign invaders." A cable from Gen. Otis this morning reports the American loss in the fighting about Manila at 250 Filipinos lost 4,000. Gen. Otis says the insurgent army concentrated around Marikina in the Luzon provinces numbers over 20,000.

MORE SMALLPOX.

Five Cases Originated at the Same House at Farran's Point.

Disease Brought There by a Hawkesbury Laborer.

(Special to the INTELLIGENCER.)

CORNWALL, Ont., Feb. 7th.-Another case of smallpox has broken out four miles west of Antville at the house of John Pruner, his daughter, who had been employed with the Whiting family at Farran's Point, being the victim. There are now three cases at the Whiting's house, making five cases in all that have come from the same quarter. The disease is supposed to have been brought there in the first instance by a boy who had been working near Hawkesbury, and came to Farran's Point to work on the Government works there.

Chronic Bronchitis Cured.

Mr. Charles E. Reid, the leading druggist of Revelstoke, B.C., says: "I have every reason to believe that the Menthon Liment will cure Chronic Bronchitis. A lady customer of mine says she has been troubled with Chronic Bronchitis for years, and that three bottles of Griffith's Menthon Liment have entirely cured her. It always gives the best of satisfaction to my customers." For sale by D. M. Waters, cor. Front and Bridge st.

THE DESERONTO FATALITY.

Full Particulars of the Death of William Battick.

(From our Own Correspondent.)

Deseronto, Feb. 6.-One of the most frightful accidents that has occurred here for years happened at the chemical works about 11 o'clock this forenoon, by which a young man named William Battick lost his life. He was testing the machinery recently put in when Mr. Battick accidentally caught on a shaft and whirled violently around it, striking some stationary woodwork at each revolution. One of his arms was torn completely off and dropped some distance from him. Both legs were broken and one nearly torn off. His head was badly cut also. When released from the machinery he lay breathless a few minutes. One of his brothers was an eyewitness and fainted at the sight.

The young man was a son of C. W. Battick, who lives here and is a big man. He was a well-to-do man, and was very popular, and was an enthusiastic worker in the Methodist Sunday School and Epworth League. The funeral will take place on Wednesday afternoon. The accident has cast a gloom over the community.

Ex-Mayor Wamsley Letter.

In a communication to a local contemporary yesterday ex-Mayor Wamsley says: "Why do not the company who own the Water Works offer to accept what they paid with say 10 per cent. added." He has it upon the authority of Messrs. H. Corby, M. P., and E. U. Thompson that the company are not only prepared to show the work cost them, but will sell for 5 per cent. addition, or one-half of the extra which the ex-Mayor proposes.

Bay of Quinte Churchman.

To all Churchmen in the Diocese of Hastings, a little paper issued in Deseronto, known as the Bay of Quinte Churchman, will be exceedingly interesting. It contains the ecclesiastical news of each parish in the county, and some very able and interesting contributions by the clergy. The subscription price is but 50 cents per year.

Have You Seen Them?

They are in our window, and my how these books are selling. They had caught to witness the process, the values, the titles, the binding, the letter press.

It is certainly astonishing the prices books are being sold at in this store.

We are not nowadays living for the day on the profit of the book sold that day, but rather are we living today on the profit of fifty books sold, and the profit on the other fifty sold we make.

Yes, many one hundred to one of books sold by modern book selling as compared to ancient selling of books.

A profit of 50c on one hundred books goes much farther than does a profit of 50c on one book. Then, too, it is pleasant to be kept busy even if one is bothered handling more cash.

Look to us, demand of us modern methods in selling, it will keep us ever bright in our modern buying methods.

A party of Belleville young people are coming attended a dance given by Misses Nightingale, of Hull's Island. Mr. H. Gorow was floor manager and the Chalmers orchestra played.

Anniversary services in Holloway at Church Feb. 12, were graciously given by W.J. Lillie, B.C.I., of Pictou. On the following Monday evening the usual anniversary tea will be served, followed by an interesting platform meeting. Speeches by Rev. Mr. Johnson will open. Special music by choir and others.

Last night the audience at the Tabernacle enjoyed one of the greatest treats by listening to the Emeralds sing and speak, and by looking at moving pictures. These are produced by a projected image and a most wonderful film. Nothing so clear and lifelike has ever been seen in Belleville. Mr. Smith has promised to produce some more of his startling scenes from life on Thursday night, when he will relate the story of his life from "The Ring to the Pail." To-night the Emerald Trio will be in Holloway St. Church. Silver collection from each at the door.

ARRANGEMENTS COMPLETED.

Mr. Corby Mill Take Over the Elevator at Once.

The Special Committee which was appointed at the Council meeting on Monday night to wait upon Mr. Corby and make final arrangements in reference to the sale of the elevator, met that gentleman yesterday afternoon. Everything has been satisfactorily arranged, and Mr. Corby will proceed at once to make the necessary repairs and enlarge the plant. Within a few days the elevator will be second to none in the Millard district.

CEMENTED THE GOOD FEELING

Geo. Ritchie & Co.'s Managers and Employees Dine Together.

Speeches by Prominent Guests and an All-Round Good Time—The Secret of the Success of the Firm.

A business whose marvellous success during forty years has been a source of pride to the citizens of Belleville is that of Geo. Ritchie & Co. Particularly is it a source of pride to the citizens of Belleville that this prosperity is due to the honesty and honor which has characterized its dealings, the efficiency of its management and its employees, and the energy it has displayed in annually invading the markets of the old world in search of the most beautiful and substantial fabrics. Possibly no business house in Canada is more respected or commands higher credit in Great Britain and in European countries than Ritchie's, and this high opinion is based upon the able financing and the close and careful buying which has characterized its managers, boys, but bright, brainy County of Hastings boys.

The annual banquet to the employees, which follows stock-taking, is always looked forward to with eager anticipations and particularly was such the case this year, owing to the fact that for the first time the lady employees were to share in the festivity. Their presence last night was an innovation so far as Belleville is concerned, and it was an innovation which was approvingly commented upon by all the speakers, and which was approved of by the ladies themselves.

The banquet was held at Wallace's restaurant, the spacious dining-hall of which had been lavishly and most tastefully decorated with bunting and flowers, but the most admired decorations were the bright and handsome faces of Ritchie's employees. The good things were served neatly and tastefully and were done justice to.

Mr. W. H. Gordon, president, having on his right hand, Sir Mackenzie Bowell, and Mr. Robt. Gordon, and on his left, Mayor Johnson and Mr. C. P. Holtom. Mr. C. M. Reid occupied the vice chair.

The following was the toast list:

"The Queen"—God Save the Queen.

Chairman's address—Mr. W. H. Gordon.

"The British Empire"—responded to by Sir Mackenzie Bowell. He was very much gratified at observing the heads of one of the largest importing houses thus meeting at a social gathering with their employees and others, thus proving to the world that they act in harmony. There should be the most friendly business relations between employers and employees. Unless the employees make the business their own, they will fail to succeed in life, and the interests of the employer will suffer. Those employees who make the interest of their employer's own are bound to meet with success, and these employees who pay fair and just wages and treat their employees as if they themselves will receive returns for the money paid. Coming to the toast he said that his friend Mr. Brown had well said when the toast was announced, "It is a day when the toast is a day of a day." It is a day of every old countryman and every Canadian can well be proud. He had heard young Canadians say down the doctrine that Canada has a history of her own. The glorious history of Great Britain is the history of every subject of the Empire. He then pointed out how religion and education and all humanizing influences had followed the Union Jack. We love Canada, the bright jewel in the crown, and as one who had travelled extensively, he could say that best country in the world in which for a young man to settle down to make his living, but at the same time we should avoid the tendency to "Know-nothingism," which consists in ostracizing anyone who was not born in Canada. Such a feeling we should try to avoid, remembering that we all, whether to the manner born or not, belong to an Empire second to none, which has been spreading Education and Christianity since the time of the apostles. The present day. It is now extending these influences to the darkest portions of Africa. When a Canadian considered this he would feel that he was an incentive for every one to do his best for his country, which he need not be ashamed, and he would be proud to declare "I am a British subject." He congratulated the establishment upon the fact that they were glad to note that the young men now in charge were worthy successors of the founder. Concluding he declared that the great secret of the success of the business was judicious advertising.

Rev. T. J. Thompson replied eloquently to the same toast. The British Empire owes no small part of its greatness to the beneficent rule it has enjoyed during the last half century. It was peculiarly fitting, therefore, that the dinner should to-night recognize this element in the success of the Empire, women's work. The basis of Britain's greatness was its commercial enterprise, and the Empire began the boundaries of trade and Empire began those splendid efforts which resulted in the formation of a greater and glorious Empire. Mr. Thompson then told humorously of his experiences at the cash desk of a dry goods establishment and of his intention to trade there. Years ago, when he came of trade that a man could not do business unless he lied. He was glad to see the children were so great success and glad to see the establishment that demanded cheating from its clerk would generally find its yearly profits diminished. He enjoyed upon the employees the lessons of economy, modesty, and industry.

A humorous recitation by Miss Cavalier, splendidly done, followed.

"Dominion of Canada," responded to by Mr. St. Barrow, who said that the Land of the Maple, and Mr. Cameron Brown, who delivered a stirring patriotic address in which he had rebuked the contention that Canada had no history. When we consider the heroes who have died for her, when we consider the battles of Queenston, Halloway, and Bechoe, we may well be proud of the stream of blood in our veins which flows down from the heroes of the old world. We, as Canadians, are proud of the brave and honorable men of the past which permeates our country, and these

qualities were particularly noticeable in the business of Geo. Ritchie & Co.

The toast list was then taken over by the vice-chairman, Mr. C. M. Reid.

"County of Hastings, its resources, lumber interests, cheese interests and mineral interests," responded to by Mr. O. P. Holtom on behalf of the lumber interests. He was very sorry that the lumber industry was assuming very small proportions in the county. The other toast present would recall when it was a great source of wealth to the county and when our reputation for lumbering extended throughout the world. Although that day was past, it is not entirely gone; as an instance, he mentioned that the Gilmore would soon re-open their big mill at Trenton.

Mr. Robt. Gordon, of Tread, replied on behalf of the cheese interests. After some interesting reminiscences of Belleville in the past, he pointed out the vast importance of the cheese industry to the county. Its revenues, many years ago, that Mr. Ketchum Graham, M.P.P. and Hon. Robt. Read came to his village and encouraged the farmers to engage in cheese-making. The result was the formation of a cheese factory, which had now three or four branches. During the past year over \$150,000 had been paid out for cheese in the village of Tread, almost the whole of which was for factories in the township of Hungerford, over \$50,000 had been paid for cattle and hogs, shipped from this village. From these figures we would have some idea of the magnitude of the provision export trade.

A patriotic recitation "The Flag" by Miss Ferguson was rendered with appropriate expression.

"The City of Belleville" was responded to by Mayor Johnson in his very best style. "Belleville," he declared, was the most beautiful city in the Dominion, the most attractive in the Empire, situated on the most beautiful sheet of water he had yet seen in all his travels. Its streets and residences were unequalled on the continent and we had now a park which for beauty of situation was not surpassed on the continent. But we have more than these, we have beautiful women and fair, honorable men. The ladies of Belleville, he declared, were not only the most beautiful in Canada, but they were the best dressed, due no doubt to Ritchie's. After referring to some of the history of Belleville, he declared that the city was the most beautiful in the Dominion, the most attractive in the Empire, situated on the most beautiful sheet of water he had yet seen in all his travels. Its streets and residences were unequalled on the continent and we had now a park which for beauty of situation was not surpassed on the continent. But we have more than these, we have beautiful women and fair, honorable men. The ladies of Belleville, he declared, were not only the most beautiful in Canada, but they were the best dressed, due no doubt to Ritchie's.

Last Night.

Humor and Pathos Alternately Chased

Each Other Across the Boards.

If any doubts existed as to the popularity of the annual "Comedy Concert" of the Mirth Lodge they were pretty well dispelled last night, for the largest and most enthusiastic audience of the season greeted Mrs. Grant and the great quintette of entertainers engaged by the gentlemen who wear the three links. People love to be amused, that is beyond peradventure. They don't care (in the great majority of cases) how difficult a thing is, or how classical a thing is, or how great the expense is in procuring it—they simply want to be amused—and if promoters and managers do not fall in with their views and try to provide something which will strike a popular chord they may count every time upon being greeted with empty benches. The large audience last night must have been inspiring to the performers, and they showed it by the vim which they put into their work. There was not a weak number on the programme. Everything went with a dash and "go" very refreshing to many who could recall concerts at which these elements were conspicuous by their absence. From first to last the interest never abated. It is safe to say that the Oddfellows' Concert will be eagerly looked forward to next season.

It would not be right to say that the lady vocalist had never been heard to better advantage. Mrs. Grant was not in very good voice last night—at least not in her opening number. Her customary sweetness of tone was absent several times, and it was not until the second verse of her encore, "Loch Lomond," that she recovered her form and showed the beautiful vocalization of which she is capable. The duet between Mr. Grant and Mr. Geo. Fox was deserving of high praise. One does not very often have a chance to hear five humorous entertainers in a bunch, such as the gentlemen who appeared last night. It would be well-nigh impossible to make a choice between them. Our local humorist, Mr. Geo. Fox, showed up grandly, and, though he used up his strength by singing fully as well as they recited. Mr. Bert Harvey certainly showed a marked improvement over his last season's form, and his song, "Brass Buttons," was both in make-up, acting and vocalization, first-class. Nobody who saw and heard Mr. Geo. Fox last night will ever forget him. Undoubtedly his best number last night was "Bandy McCusky." Dressed as a burlesque Highland piper, Mr. Fox came in playing the bagpipes, and sang a song in Scotch dialect. The last line of each verse fitted in exactly with the drone of the pipes, and Mr. Fox struck out the bagpipes alternately singing and piping the ludicrous effect can well be imagined. The Oddfellows certainly spared no pains or expense in putting on their concert, and of its success they have every reason to be proud. (Col.) Campbell and Miss Chalmers were the accompanists. The Oddfellows' Band played some fine selections. Following was the programme:

1. Song—"A CANDIDIAN'S TOAST." J. Fox.
2. Song—"Brass Buttons." J. Fox.
3. Recitation—"The Little Girl Who Swam the Boat." J. Fox.
4. Song—"The Little Girl Who Swam the Boat." J. Fox.
5. Song—"A May Morning." Denza.
6. Recitation—"The Little Girl Who Swam the Boat." J. Fox.
7. Duet—"The Little Girl Who Swam the Boat." J. Fox.
8. Song—"Sandy McCusky." Kent.
9. Song—"Jacob in Search of a Father." J. Fox.
10. Song—"To-morrow." J. Fox.
11. Recitation—"The Little Girl Who Swam the Boat." J. Fox.
12. Song—"The Little Girl Who Swam the Boat." J. Fox.
13. Song—"Mrs. J. Grant." J. Fox.
14. Recitation—"The Little Girl Who Swam the Boat." J. Fox.
15. Duet—"The Little Girl Who Swam the Boat." J. Fox.
16. Song—"The Little Girl Who Swam the Boat." J. Fox.

STRUCK BY THE TRAIN.

Former Resident of Trenton
Killed Near Rochester, N.Y.

Hurled Thirty Feet—Accident a Mystery, as the View of the Crossing is Unobstructed.

Rochester Times (Monday evening): Coroner Kleindienst will hold an inquest at the morgue this afternoon in the case of Percy Brown, a young man 18 years of age, who was killed by the cars on the Lehigh Valley railroad at West Henrietta at an early hour yesterday morning. Young Brown was employed by W. H. Griffin, a dairy farmer. Young Brown's duties were to cover a milk route in this city. He was accustomed to leave home later Sunday morning than usual. It was 7:30 when he left the Griffin farm, which is on the Bailey road, half a mile south of the Lehigh Valley tracks. Just before he reached the crossing Engineer Daniel Conolly, in charge of the engine drawing the train, saw him. Conolly blew the whistle and applied the air brakes, and his fireman, Frank Cunningham, rang the bell.

An instant later the engine struck the front of the wagon and the rear of the horse. The wagon was dented and the horse thrown 50 feet and killed. Brown was thrown a distance of 30 feet, landing in the ditch beside the tracks. The train was backed up to the scene of the accident and Brown was taken on board. Although unconscious, he did not appear to be fatally hurt, the only injury being a fracture of the skull. The coroner will hold an inquest in the case this afternoon, if it is possible for him to get his witnesses here.

Coroner Kleindienst was notified and had the body removed to the morgue. An examination of the remains showed that the body was hardly marked, death being due to fracture of the skull. The coroner will hold an inquest in the case this afternoon, if it is possible for him to get his witnesses here.

Brown lived near Trenton, Canada, and came to Rochester about a year and a half ago. Deceased leaves one sister, Mrs. William Furlong, who lives at 389 State St. in this city.

Tuesday evening: An inquest was held at the morgue yesterday afternoon by Coroner Kleindienst in the case of Percy Brown, 18 years of age, who was killed at the Bailey road crossing of the Lehigh Valley railroad at West Henrietta, Sunday morning. The evidence showed that the young man was driving at a fair rate of speed toward the crossing.

Brown was either trying to make the crossing ahead of the train, or his horse became unmanageable. The coroner's verdict was that Brown was at fault. The distance of the railroad tracks there was a house and a barn and a thick orchard, besides the storm fence ten feet high, built by the railroad. This formed an obstruction to the view of the tracks from the road.

The deliberation of the coroner's jury took more than an hour. They returned a verdict of accidental death, and recommended that a flagman be stationed at this crossing by the railroad company.

A Beautiful Pair of Geldings Purchased By our Popular M. P.

As mentioned in this paper only on Tuesday, Mr. H. Corby, M.P., has received the beautiful pair of carriage horses purchased by him from Mr. A. Yager, of Simcoe. They are geldings, five years old, and a beautiful dark bay in color. They stand 16 hands 1 inch in height and are splendidly matched. They weigh 1250 pounds each. The dam of one was the famous War Cry, which won the first race for the Queen's Plate. The sires were Billy Lapland and Royal George. They are both good saddle horses and fast roadsters, and one of them is a splendid hunter, being able to tackle a hurdle five feet high, carrying a man weighing 200 pounds. Mr. Corby is naturally proud of his purchase.

\$10.00 Suits For \$6.50.

You get them exactly as advertised at the Oak Hall. Of course some of the one hundred suits are only \$8 and \$9, but we show you them, and very often the pattern of the chequer suits please the best, and any of them are a bargain. Three-quarters of the buyers so had never before worn a ready-made suit. We surprised them on the fit and quality. We will lose quite a lump of money before this sale of suits is over, but we are going to have some permanent new customers. It is going to pay us in the long run.

BURIED WITH HONORS.

A Large Gathering at the Funeral of Willie Sero.

The funeral of the late Willie Sero took place this morning, and despite the severe cold weather, was very largely attended. An escort and firing party of No. 2 Company, XV. Battalion, with Col. Sargent, Sheriff in command, headed the cortege. The Catholic Order of Foresters, of which deceased was a member, was well represented. They proceeded to St. Michael's Church, where Mr. Farrelly officiated. The church was well filled with sympathizing friends. The choir chanted the "Libertaria." At the grave Rev. Father Conolly officiated. The bereaved were O. Deonville, W. J. O'Brien, W. D. Dunlop, P. Magner, P. Smith and E. Gillick.

A PIONEER'S DEATH.

At Wallbridge & Clarke's.

His Life Filled Nearly the Whole of the Nineteenth Century.

Three died at the Carrying Place, Prince Edward County, on Tuesday, Feb. 7th, Lieut.-Col. Reuben Young, in his ninety-fourth year.

Lieut. Col. Young was the eldest son of the late Lieut.-Col. James Young, M.P., who settled on the "Homestead" at the Carrying Place, in 1796. Here Reuben

was born on July 20th, 1805, and lived continuously until his death. That he took an active interest in military matters is evidenced by the fact that he was in 1831 appointed an ensign in the 2nd regulars of Prince Edward by the then Governor of Upper Canada, Sir John Colborne. He was promoted in 1837 to be lieutenant.

to 1839 to be captain in 1832 to be major, and in 1838 to be lieutenant-colonel. During the rebellion of 1837-38 he was in active service. While the war of 1812 was being waged the officers connected with the various regiments passing up and down the province used their headquarters for that district at the residence of Lieut. Young, and Col. Reuben Young, then a boy seven years old, distinctly remembered seeing the soldiers and hearing the band which played in front of his father's house at this time.

A paper which quite recently came into the possession of David Doyle, curator of the Ontario archaeological museum, shows that in 1839 Lieut. Young was one of the officers who were tried for the crime of "delinquency." The other members of the court, none of whom appear to be, were Capt. John Young of Burlington, and Capt. Biggar, Capt. John P. Roblin and Capt. Thos. Fiegler.

Lieut.-Col. Young always took a deep interest in public matters, and occupied an important position in the councils of the municipal and county councils in the early part of the century. He was

the governor for the colony of Prince Edward Island in the thirties, and in 1835 was appointed "an agent for issuing marriage licenses." He never lost interest in political matters, and at the last general election, although he was over ninety-three years of age, cast a vote in three counties: Prince Edward, West Hants and East Northumberland. In religion he was an Episcopalian, but he had been a member of the union of different churches. He was a warm supporter of the Liberal party. In 1829 he married Nancy Birnie, who predeceased him two years.

Manila Fight Said to Be a Trick to Work the U. S. Senate.

Manila Always Held out for Peace. Hence American Hostilities Inevitably to Prove Hostilities.

London, Feb. 13.—The European Pillipino Junta has received a telegram from Manila, dated Feb. 12, stating that the American forces had been defeated in the battle of Manila. The Junta is said to be in a state of confusion. The British cruiser intercepter, which was on duty at the Bluefields coast, heard from the British cruiser intercepter, which was on duty at the Bluefields coast, that the vessel was on the coast.

Several despatches have also been received from Manila, via Hongkong, stating that the American forces had been defeated in the battle of Manila. The Junta is said to be in a state of confusion.

On Sunday a force of Americans attacked simultaneously Calocan and Santa Mesa. Two American warships were off Manila and Malabon, and another gunboat was in the Pasig River to protect the American fleet.

The fighting was very stubborn and lasted continuously from Saturday to Tuesday. General indignation has been occasioned by the treachery of the American forces. The Junta is said to be in a state of confusion.

ILOILO HAS BEEN CAPTURED

Gen. Miller Took the Town on Saturday Last

The Filipino lived the Place, But the United States Troops Quenched the Flames—No Losses to the American Troops Reported by General Miller.

Manila, Feb. 14.—(9.35 a.m.)—The United States forces, under Brigadier-General Miller, captured Iloilo, the island of Panay and east of the so-called Government of the Visayas Federal Convention, on Saturday last, after a bombardment.

The rebels set the town on fire before evacuation, but the American troops extinguished the flames. There were no casualties on the American side.

Despatches from Miller.

Manila, Feb. 14.—(9.35 a.m.)—The United States garrison at Iloilo, after the last evening with despatches from Brigadier-General Miller, to Major-General Otis, announcing that Iloilo had been taken by the combined military and naval forces on Saturday morning.

General Miller, on receipt of his instructions from Manila, sent native commissioners ashore from the U.S. transport St. Paul with a communication for the rebel Governor of Iloilo, calling upon him to surrender. He was refused, and warning him not to make a demonstration in the interval. The rebels immediately moved their guns and prepared to defend their position. Thereupon the Federal first two warning guns, the rebels immediately opening fire upon her.

The Petrel and the Baltimore then bombarded the town, which the rebels, having set on fire, immediately evacuated.

American troops were promptly landed and extinguished the fires in all cases of foreign property, but not before considerable damage had been done. It is believed the enemy's loss during the bombardment was heavy, but no American casualties were reported.

Pia Malabok of the Montana Regiment, who was shot in the lungs in the fighting Feb. 4 and 5, died in the hospital yesterday.

All the enemy's dead at Calocan have been buried—127 last Sunday and 400 yesterday. The United States cruiser Christian has moved up the coast and is now at Malabok, the east of the so-called Philippine Government at a distance calculated at about eight miles.

After a discussion of Mr. Labouchere's amendment, Mr. John Lawson, Valton, Liberal member for South Leeds, proposed an amendment to the address, declaring that the papers now presented by the House of Lords overruling the decision of the House of Commons demand urgent attention of Parliament.

Campbell-Bannerman's Speech.

Sir Henry Campbell-Bannerman, the newly-elected leader of the Liberals in the Commons, supported the Valton amendment. In the course of a vigorous speech he declared that the Liberals were actuated by patriotic spirit in raising the question, but the House of Lords, he declared, had always formed a continuous and stereotyped anti-Liberal majority. "On patriotic and constitutional grounds," said Sir Henry, "the situation is full of danger; and no dispassionate man can deny the anomaly and absurdity of a House of Lords in the face of a representative system of Government. The Liberals desire to guard the rights of the representative chamber, and in giving to the House of Peers a reasonable power of criticism and advice."

Mr. Balfour's Reply.

Mr. Arthur J. Balfour, Government leader, said there was no middle course between the policy expressed in Mr. Labouchere's amendment and the policy of leaving the House of Peers in the present position. He declared it to be his firm conviction that the Liberals, in proposing constitutional reform, were really acting in the interests of the party.

The House then rejected both amendments—Mr. Watson's by 287 against 107, and Mr. Labouchere's by 333 against 105.

RUSSIANS FLOODING CHINA.

A Full Army Corps Has Been Added to the Russian Forces in Manchuria.

Longkong, Feb. 14.—The Russian Government is pouring troops into Port Arthur and Tientsin, on the ground that the Chinese are not doing enough to protect the Russian interests in the region. The Chinese are said to have within the last two months sent 10,000 men to the Russian frontier in 13 towns and districts.

Port Arthur within a month, and is intended to add 20,000 more before the end of the Chinese first moon, making a full army corps of 20,000 men.

For coughs, colds, bronchitis and all lung and throat troubles, there is no preparation so effective as Bickel's Anti-Consumptive Syrup. It never fails to afford prompt and permanent relief. It removes all secretions and breaks the diseased parts. It immediately soothes the most troublesome cough, and by promoting expectoration, removes the mucus which clogs up the air passages, thereby relieving the difficulty in breathing, thereby relieving the chest. Public doctors and singers will find Bickel's Anti-Consumptive Syrup of inestimable value. It is a powerful and powerful to the vocal cords, rendering the voice clear and sonorous. If parents wish to save the lives of their children, and themselves from much anxiety, trouble and expense, let them procure a bottle of Bickel's Anti-Consumptive Syrup, and whenever a child has taken a cold or hoarse voice, give the Syrup according to directions. It is easier to be good than great—there is less opposition.

At Death's Door—Dyspepsia Conquered.—Great Medical Triumph—Gentlemen.—My medical adviser and others told me I could not possibly live when I commenced to use Bickel's Anti-Consumptive Syrup. I was one of the worst of them. For three years I could not eat meat and my weight decreased from 210 to 110 lbs. The food I took for three months previous to taking the Vegetable Discovery consisted of milk. I am now cured and have gained 100 lbs. weight. I can eat anything with a keen relish and feel like a new man. I have sold thirty dozen Vegetable Discovery since I am cured, as I am well known, and people in this section know how low I was, and thought I could not possibly be cured. They certainly try this great medicine. I am not exaggerating anything. I never expected to recover when first commenced using it. I am not exaggerating anything. The sun shines for all, but the sleeping car porter does for a quarter.

Totally Dead.—Mr. E. C. Crandell, Port Perry, writes: "I contracted a severe cold which resulted in my becoming totally dead in one ear and partially so in the other. After trying various remedies, and consulting several doctors, without obtaining any relief, I was advised to try Dr. Thomas' Electric Oil. I warmed the Oil and poured a little into my ear, and before one-half the bottle was used my hearing was completely restored. I have heard of other cases of deafness being cured by the use of this medicine."

Love and war go hand in hand. Even the din of battle has a sort of engagement ring.

The proprietors of Parmenter's Pills are constantly receiving letters similar to the following, which explains it. Mr. John A. Bean, Waterloo, Ont., writes: "I never used any medicine that can equal Parmenter's Pills for dyspepsia or Liver and Kidney Complaints. The relief experienced after using them was wonderful. As a safe family medicine Parmenter's Vegetable Pills can be used in all cases requiring a cathartic."

It is the small things of life that are annoying. Even the little mosquito greatly annoys a nervous man.

Give Holloway's Corn Cure a trial. It removed corns from one pair of feet with surprising rapidity. What it has done once it will do again.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It cures all diseases of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

Tilt at the Board of Education Over a Chairmanship

Inspector Scott's Report-Baldwin Ward Secures Representation.

Last night's meeting of the Board of Education was convulsed by a somewhat acrimonious debate in regard to the election of the chairman of the School Management Committee, between Dr. R. Tracy and Mr. Hugh Walker on one side, and Mr. F. E. O'Flynn and Mr. Wm. Johnson on the other.

Dr. Tracy brought up the matter by rising and declaring that he had been elected to the position of chairman of the meeting to select a chairman for the School Management Committee, and that in a hurry he had declared that Mr. J. Lyons Biggar had been elected, without considering that he had a vote himself, which would have been cast for Mr. J. Lyons Biggar.

He claimed it was a piece of job to move him to the chair in order to confuse him, and thus prevent his vote being cast for Mr. Diamond. He had been informed that a member of the Committee, Mr. F. E. O'Flynn had been boasting of having stolen a march on the speaker in regard to the matter. He wished to know if the report of the Committee in regard to the election of a chairman had ever been adopted.

Mr. O'Flynn indignantly disclaimed any intention of putting up a job on Dr. Tracy, and asked for his authority as to the statement of his having boasted of having circumvented him. It was a choice between two men equally able and worthy of the chairmanship, and he had no ulterior motive in moving Dr. Tracy to the chair.

Mr. Wm. Johnson explained that it was not the custom of the Board to formally adopt the reports of the Committees in regard to the election of chairmen. They were always tacitly agreed to. He knew of no such job as Dr. Tracy spoke of.

Mr. J. Diamond agreed with Mr. Johnson as to being governed by precedent. That gentleman, however, was willing to ignore precedent when it suited his own ends.

Mr. Hugh Walker thought that Mr. O'Flynn's purpose in moving Dr. Tracy to the chair was to take advantage of the High School Committee's report in regard to the chairmanship.

Mr. J. F. Wills thought the report of the Committee as to chairman elected should be formally adopted, the same as any other report.

Finally, Mr. Hudson moved that, as Mr. Biggar's name had been printed on the motion forms as Chairman of the Committee, the matter be allowed to drop.

After Mr. J. Diamond had declared his concurrence in the resolution it was adopted.

G. V. SCHOOL COMMITTEE.

Mr. J. F. Wills brought up the matter of the representation on Queen Victoria School Committee. He was unavoidably absent from the last meeting of the Board, and now took the first opportunity of protesting strongly against the fact that Baldwin Ward had no representation on the committee.

On motion of Mr. Johnson the Committee for this year will consist of the six H. S. Trustees, the two P. S. Trustees from Ketcheson Ward, and one P. S. Trustee from Samuel Ward. Baldwin Ward sent as many pupils as any ward in the city.

Mr. J. Diamond thought every ward should be represented on the High School Committee.

On motion of Mr. Johnson, the rules were suspended in order to allow Mr. Wills to introduce a motion to allow the High School Committee to be enlarged to consist of eleven members, which was carried.

On motion of Mr. Johnson the Committee for this year will consist of the six H. S. Trustees, the two P. S. Trustees from Ketcheson Ward, and one P. S. Trustee from Samuel Ward.

COMMITTEE'S REPORTS.

The Finance Committee's report was adopted. It recommended the payment of \$1,300; Annie Eassey, \$20.00; A. L. Geary, \$14.00; Jas. Young, \$2.00; Wm. McNeil, \$14.00; R. Rivers, \$1.20; G. Ritchie & Co., \$1.45; D. Dixon, \$2.25; Jas. Mullins, \$2.50; G. O. Leavens, \$2.50.

INSPECTOR'S REPORT.

The report of Inspector Johnson for January, giving the attendance and the result of the promotion examinations was read.

Secretary Diamond read his report as to the amount of insurance carried on each building and the report of the Inspector of Buildings as to the value of the property thus insured.

The report of High School Inspector Scott was also read. The following is a synopsis:

The Board should appropriate a yearly sum of \$200, or \$300 added to the present sum of \$100, for the improvement of the library and the value of each school year to the first class condition.

Ratio of pupils to teachers, 44. The staff is sufficient for the present total attendance, but the teacher has been dispensed with, but for the fact that the school is so disproportionately large, some re-adjustment will be necessary.

Staff—All legally qualified. Discipline—Satisfactory.

CLASSES OF TEACHING.
English and History, 1—II; Mathematics, 1—II; Science, Physics and Chemistry, 1—II; Classical Latin, 1—II; Drawing, 1—II; Commercial, 1—II; Drawing, 1—II; Reading, 1—II; good, 1—II; fair, 1—II; poor and IV, 1—II.

The general condition of the school continues to be satisfactory. The attendance is better than formerly; but, in this respect, the school is in the same condition as the other High Schools of the Province.

THE BOARD OF ELECTIONS.

Mr. Johnson brought up his motion, of which notice had been duly given, that the Board petition the Legislature to amend the election law for P. S. Trustees by cumulative voting in cities where the latter mode was accepted in regard to municipal elections.

Dr. Tracy suggested that the scope of the motion be enlarged to include the election of H. S. Trustees.

Mr. Wm. Johnson readily consented to this, and with the amendment the motion was allowed to stand as a notice of motion.

On the suggestion of Mr. Johnson, as a

matter of courtesy, a notice of motion given by Mr. T. H. Wills was, in his absence, owing to illness, allowed to stand.

THE BY-LAWS.

Mr. J. Lyons Biggar gave notice that at the next meeting he would move the appointment of a Committee to revise the by-laws and rules of procedure of the Board.

RE-TAXATION.

Mr. J. L. Biggar gave notice that at the next meeting he would move the appointment of a Committee to revise the by-laws and rules of procedure of the Board.

That the Chairman of Finance, of Queen Victoria and High School, and the School Management Committee, be a Special Committee to enquire into and report upon the cause of the increase in the amount levied for school purposes in the past few years, and to report to the Board if any reduction can be made in the same without injuring the efficiency of the Schools.

Those present were: Rev. Canon Burke, Chairman; Messrs. J. Lyons Biggar, J. F. Wills, J. L. Biggar, H. Pringle, Dr. Tracy, Geo. Bennett, J. H. Mills, H. Walker, John Martin, F. E. O'Flynn, Wm. Johnson, W. C. Reid, S. J. Widdon and W. P. Hudson.

The Last of the Line.

On looking over our inventory list, we find we have quite a number of good suits in men's, youths' and boys' that are the last we have left of the line. As we are unable to duplicate the patterns, we have decided to cut the price low enough to tempt anyone. They are all the good points in design and finish and are without profit simply to close out the pattern. Come and see how close we keep to facts.—QUICK & ROBERTSON.

DEPUTATION OF ONE.

Mayor Johnson Represents the City on Deputation re-Assessment Act.

The special meeting of the City Council, held yesterday afternoon to consider the advisability of sending a deputation to Toronto in reference to having the assessment act re telephone and telegraph poles, wires, etc., remedied, decided to send His Worship Mayor Johnson.

The members present were: Mayor Johnson, Aldermen Jones, Starling, Bogart, Doyle, Robinson and Carter.

The Mayor stated the meeting was called to consider the advisability of sending a deputation to Toronto to confer with other municipalities in petitioning the Ontario Government in reference to amending the Assessment Act, respecting the taxation of telegraph and telephone poles, wires, etc. His Worship read a communication from the Mayor of Brantford, stating that that city would send a deputation and that it would be in Toronto on Wednesday, Feb. 16th, at 2 p.m. The city was only at present, owing to the change in the assessment act, able to assess the Bell Telephone Company \$1,033 per year, which was not a fair assessment.

Ald. Starling moved, seconded by Ald. Bogart, that His Worship the Mayor be the deputation on behalf of the city. Ald. Bogart said it would mean a large delegation, as there would be a number of other gentlemen to assist in the matter.

Ald. Doyle was in accord with the proposition that the Mayor be the deputation, as he considered His Worship was in every way capable of representing the city in the matter.

The motion was unanimously adopted and the Council adjourned.

A DRUGGIST'S FAITH.

What's Most Called For Must Be the Best Remedy.

A druggist's testimony of the popularity of a remedy is the strongest kind of a proof of its value. It is what it promises. Paul Livingston, druggist, of Allentown, Pa., says: "Dr. Agnew's remedies have been my mainstay for many years. I can say for myself that Dr. Agnew's Catarrh Powder is the best seller for catarrh of the bladder. Many of my customers praise it highly." It is a great remedy and has a continental reputation. Sold by J. S. McKeown.

THE POLITICAL JACOB.

Mr. W. C. Mikel, Belleville, Addresses Toronto Young Conservatives.

Mail and Empire: There was a fair attendance at the meeting last night of the Young Conservative Club, and Mr. J. F. Foulds presided. Mr. W. C. Mikel, of Belleville, one of the best known young barristers in Eastern Ontario, was present and when called upon spoke briefly, touching first upon the cheering signs of the recuperation of the Conservative party. Of the Ontario Government, he said that Mr. Hardy was now adopting Mr. Whitney's policy of retrenchment, but the speaker had no faith in him; he had put on the Opposition gloves, and now, though the hands were the hands of Esau, the voice was the voice of Jacob. The people at large were sick of corruption and nepotism, and they would rally to the support of the party that would stand for clean, honest government. Certainly Mr. Hardy, with his old time system, could not be relied upon for it.

ON THE WAY HOME.

Former Resident of Roslin Dies in the Hospital at Chatham.

Mr. W. P. Hudson, ex-M.P.P. of this city, this morning received a telegram conveying the sad intelligence that his brother, Mr. Henry Hudson, had died in the Hospital at Chatham after an illness of several weeks from pneumonia. Deceased, who was a former resident of Roslin, took ill at Roslin and started for his old home. When he reached Chatham, where he had formerly worked, he found he could make no further and entered the hospital.

The late Mr. Hudson was a woodworker by trade, unmarried, and about 48 years of age. Mr. W. P. Hudson left today to bring home the remains.

Runaways.

Last evening a horse belonging to Mr. McMahon of this city ran away from front street. The animal was captured before doing any damage.

This morning a horse belonging to Mr. Wm. Clarke, butcher, being left untied in the Anglo-American Hotel yard, became frightened and ran away. In proceeding at a fast gallop out of the gateway on Front street, a lady had a narrow escape from being run over. The animal is loaded with a large pile in front of Mr. Clarke's shop and was captured. The cutter was slightly damaged.

MID KLONDIKE'S SNOWS.

Selections from an Arctic Newspaper.

The Doings in Dawson—A Tale of Privation—Notes from a Virile and Vigorous Newspaper.

We are indebted to Mr. F. W. Brooks, of Dawson City, for copies of the Klondike Nugget, published at Dawson City, Y.T., bearing dates Dec. 31, Jan. 4, 11, 12 and 14. It is a four column, four page paper, non-partisan type with up-to-date DeVine and Facade headings, and is evidently printed on a Washington press. It is issued semi-weekly—on Wednesdays and Saturdays in advance, \$24.00; six months, \$12.00; three months, \$6.00; per month, by carrier in city (in advance) \$2.00; single copies, 25c. The Manager is E. O. Allen, the editor, G. M. Allen, and the City Editor, A. F. George. It claims a paid circulation five times that of any paper published between June and the North Pole.

The number of Dec. 31 contains a vivid account of an attempt to waylay and murder a mail-carrier, Sanderson by name. An account is given of a meeting of the fire boys of the volunteer department. The new fire ordinance, giving the chief unlimited authority during a fire, was read and explained. The local poet is to be heard with some "New Year's Greetings" in rhyme. An editorial, which appeared in the London Times, accusing the Government officials in the district of corruption, is approvingly quoted. The police court items are concisely written. The following are samples:

"O. Des-patched the Christmas limits in his 'tag' and it could not be overlooked. \$25 and costs.

"O. D. Johnson is putting in four months on the wood-pile. His particular offence consisted in stripping a neighboring cabin during the absence of the proprietor.

"T. McKelown was exceptionally jubilant over the advent of Christmas and wouldn't take no for an answer. 10 days on the wood pile will clear his reason so that he may perceive the straight and narrow path when it again offers.

"W. Haselton is the man who fired off a couple of pistol shots on Second street the other evening and occasioned a still hunt by the police and others for a supposed suicide. If the man had been required to pay each of the shots on the last \$1 an hour, the escapade would have cost him more than his life of \$5 and costs."

An item headed "Christmas Under Difficulties" tells how the day celebrated the day by a snow-balling contest. The "A" fire had to be first kindled in order to make the fire-klondike work of sufficient consequence for the purpose. The contest, like all great battles, was won by strategy.

The editorial page contains a very powerful arraignment of the Canadian Government's Yukon policy, which there exists universal dissatisfaction.

Accounts are given of Christmas entertainments in St. Paul's Church, the Methodist Church and the Presbyterian Church, Eldorado City. There were some miscellaneous news and several columns of advertisements make up the average issue.

At the Monte Carlo Theatre the bill is Blanche La Mont and singing pianist the Corbett Courtney light. Admission 50 cents, including check good for drink at theatre bar.

The issue of Jan. 4 contains "late" news from the world, including an account of the disappearance of Dr. Ireland, of Trenton, and the proceedings of the Spanish-American Treaty Commissioners.

It is also gleefully announced that the Nugget has reached a circulation of 1992 copies.

The issue of 11th in large black type specifically charges that the Government official named Reilly, had taken out fraudulent claim on Gold Hill. The Nugget reporter requested information but was "turned down" by local officials.

Sporting men would be interested in the particulars of a twelve curley fight between Pat Rooney and Curley Carr, the latter being sent under the table.

A same issue contains an interview with a new arrival, who tells of a bloody war they engaged in between Norway and Sweden, 30 or 40 years ago.

Also announced that it will send a representative to Ottawa to ask the Government to reachably answers.

The issue of the 12th, an extra, contains the story of a man named George Harvey, who was refused a fractional claim because they were illegal, although Reilly, a Government official, had just received one. Accounts of insults received by respectable men at the hands of Government servants are given.

The issue of the 14th gives a plan of Reilly's fractional claim and also a list of the reforms which the miners will make of the Government.

A clipping from the Nugget enclosed to us in a letter gives a horrible tale of destitution from Galena. A young man named Gil, and his partner went in there prospecting, but were unsuccessful. The latter decided to go out over the ice, but as Gil was afflicted with rheumatism of the lower limbs he could not accompany him. The partner had no sooner gone than Gil was seized with fear; he could not get up, and he kept on any fire, and the only provisions he could procure were a little flour and water, the latter being secured by picking the frost off the trail and melting it over a candle. In this awful condition he remained for thirty days, until rescued by a party of prospectors. When found he weighed only 75 pounds and was badly frost-bitten.

BRAVE BRITISH TARS.

A Letter From the Veteran Commander of the Historic "Sarah Sands."

A Belleville Man's Connection With the Famous Incident.

Shortly after the appearance of Rudyard Kipling's article on the heroic story of the burning of the "Sarah Sands" in 1857, the late John S. Corby, a veteran representative of the navy still surviving, wrote to the "Pall Mall Gazette" complaining that Kipling had not done justice to the naval element on board the burned ship, of which he was in command, when our own Major Gillum led the rescue party and protected the women and children. This letter having been called to the attention of the late Major Gillum, he wrote to Commander Corby, who resides in Kent, England, giving him some extracts from Major Gillum's letter, appreciative of his seamanship in bringing the ship safe to the Mauritius with one sailor and one mast, a feat of seamanship rarely equalled; and this week Colonel Ponton is in receipt of Commander Corby's reply, which shows that the veteran is still vigorous and wields a vigorous pen.

Stapleton, Sidcup, Kent, 1st February, 1899.

Dear Sir—I read your kind letter of the 28th inst. and am very glad to thank you for the information that you have given me with reference to the late Major Gillum's letter, which was partly written by him on board the ship and finished at the Mauritius, whilst all the incidents connected with the fire, of course, are fresh in his memory. I remember him well, and I don't think it possible for any person who has heard his cheery voice to forget him. I am sure that he was beloved by every man on board the ship, and I am very glad to hear from his death. I have often wondered if he were still living. You mention that he was a very good sailor, and that he was a man in the boats. I know that there were rumors to that effect, and I ought to have denied it at the time, but I was so thick with the smoke of the ship into which I lost of life that I did not bother to do so. The men were placed in a very difficult position owing to the strong wind and high sea which then prevailed, whilst in all probability they were not aware that their services were required to endeavor to tow the ship's head round to the wind.

With reference to the book published by Bamrose & Sons in 1870, I happened to be in England at the time, and saw the advertisement in one of the evening papers, and on the following morning I called upon the publishers and applied for a copy of the book, at the same time explaining who I was, but it was withheld for private circulation only. They, however, informed me that the book was written by a young officer who had joined the service shortly before the outbreak of the war, and as he left it very soon after arriving in India, I did not think that he was very well qualified to write a correct account of the affair and so took no further notice of it.

I have, however, seen the book in question since Mr. Kipling's story appeared in "Black and White," and there can be but little doubt that it is from that source he derived the greater part of his information, which, as you say, is entirely from a soldier's view of the case.

I hardly endorse the praise which he has bestowed on the soldiers, but I strongly object to the manner in which he has treated the blue jackets.

I thought after reading this story I would write you an exact account (from my point of view) of all the events connected with the burning of the "Sarah Sands," but on second thoughts considered it better to let the matter drop.

Thanking you for your very interesting and kind letter.

Yours very truly,
(Signed) JOHN S. CORBY, Lt. Commander "Sarah Sands."

GRAND CONCERT.

Audience Delighted by Ladies' Military Band.

In the Auditorium last evening the third number in the Star entertainment course was given by the Ladies' Military Band of Boston. There was scarcely a vacant seat in the Theatre, and a number more had been provided for this entertainment than were necessary at the previous two. The band that furnished the evening's entertainment was composed of 22 young ladies, neatly attired in gowns of white with military trimmings.

Features of the concert were a cornet solo, a soprano solo, and a novelty in the way of a cornet, quartette, played by Misses Mary Jane Grant, Miss Hangerford, Miss Holme, Miss G. Price, Miss Holton, Miss Graham, Miss Bowdoin, Miss W. Graham, Holiston (Toronto), Miss (Col.) Campbell and Prof. Dingle. The large audience that is expected at Bridge Street Church Friday evening is sure of a treat.

"She is a Good One."

The Rev. D. O. Cronley telephoned Mr. C. P. Holton yesterday afternoon from Peterborough about Miss Ethel Webb, Elmhurst, "Get her, you see, she's a good one. We have had her three times and she has filled the church every time and delighted every one."

GRAND TRUNK DECLINES.

To Aid or Encourage the Proposed Trans-Ship-ment Here.

Mr. Corby's Statement of His Interview with the Officials—Elevator May Be Enlarged for Local Purposes.

Henry Corby, Esq., M.P., returned from Montreal last evening.

This morning a representative of THE INTELLIGENCER called to see him in regard to his efforts to secure the co-operation of the Grand Trunk in the scheme to make Belleville the trans-shipment point for the North-West grain.

"I am sorry," were Mr. Corby's first words, "that my mission so far as obtaining Grand Trunk aid for our scheme was a failure."

"I was cordially received by Mr. Reeves," he continued, "and was given all the time I wanted. I was clothed with him for about an hour and a half. He pointed out that the road now had two elevators at Midland, with a capacity of 1,500,000 bushels, another large elevator in Montreal, with carriers from the elevator right on board the ocean steamer, with a capacity of 1,000,000 bushels. What the road now wants is the least haul. They have no intention of building an elevator in Toronto, and at the present time could not consider a proposition to build one in Belleville, as they are more than able now to take care of the through grain with the Main line and the Midland. Should trade increase so that these would be inadequate, the officials would be prepared to build an elevator either at Belleville or at some point on the St. Lawrence."

Mr. Reeves, when I was leaving, assured me that the road had the very kindliest feeling towards Belleville, and would be only too pleased to assist, when possible, in furthering its interests. He promised that should anything turn up he would advise me at once."

Mr. Reeves also congratulated Belleville upon being the only city which possessed a private citizen who was willing to put his money in the venture; Toronto and the other cities all want Government aid. Mr. Corby secured assurances, before waiting upon Mr. Reeves, from Canada's strongest and most conservative financial institution, that they would back him for any amount."

As the scribbles leaving Mr. Corby said, "I will have the proposition to lay before the City Council on Monday evening. I have not yet decided upon the details, but I may say generally that I intend to largely increase the capacity of the elevator for local purposes, and my proposition will have reference thereto."

Mr. Corby spends \$15,000 or \$20,000 in enlarging the capacity of the elevator, thus bringing an immense quantity of grain from the surrounding country, would it not be fair for the city to encourage him to the extent of exempting from taxation the reconstructed elevator to a amount such, rent? This is the system employed in western cities to encourage agricultural and manufacturing industries."

Mr. Corby it is understood, is in correspondence with several eminent engineers in regard to drawing plans for the proposed changes.

The City Council would do well to deal liberally with the proposal.

THE FRENCH ARMY.

The Germans Hear That It Is Quite Equal to Their Own.

London, Feb. 16.—The Berlin correspondent of the Times says in the course of the budget committee's discussion of the military bill, General von Schell, Minister for War, gave confidential information regarding the condition of the French army, which, he said, had made great progress, and now, after the campaign of 1898, was in a position to be equal to the German army. This information must have been important, for Herr Schell, the chief of the German army, had been known to be a member of the German army, and had been known to be a member of the German army.

tract had been forfeited, they could sue.

No person had been given of action since the company was organized on April 23, 1897, that such could not be given, and that it was the intention of the Government to allow the company to sue.

However, should the company proceed to sue, it would be a million dollar case, and the work to be done would be enormous.

On Nov. 1, 1897, the Government would then decide on a course in the public's best interest.

The case of default the Government would declare the right of the company to the sole use of the water of the parks forfeited.

The Government had received various proposals from the Canadian Power Company, one being an offer to pay \$100,000 per annum in actual use. Another, made on Feb. 6, to pay \$100,000 per annum, and the rights and privileges enabling the company to develop 100,000 horse-power, no agreement could be entered into until the expiration of the present agreement.

The Budget Debate.

Mr. Stratton, continuing the budget debate, congratulated the Government on the state of the finances of the province.

The appropriations for the year had not been excessive. There was a surplus of \$1,000,000, and the Government was in a position to pay off its debt.

THE GOVERNMENT

Opposition Are Not Satisfied With Mr. Hardy's Reply.

They Will Take Up Mr. Gorman's Question About the Niagara Power Company if He Is Not Pleased With the Result—Mr. Straton Gives a Hint as to How the Revenue Will Be Increased—Bills Read.

Toronto, Feb. 17.—In the Legislature of Ontario, Mr. Gorman's question about the Niagara Power Company was taken up today. Mr. Straton, who is in charge of the bill, gave a reply which was not satisfactory to the opposition. He said that the bill was not yet ready for introduction, and that he would have to wait until the next session of the Legislature. He also said that the revenue would be increased by the bill, but that the increase would be small. The opposition, however, is not satisfied with his reply, and they will take up Mr. Gorman's question again if he is not pleased with the result.

Mr. Straton Continued.

Mr. Straton resumed the debate on the bill, and further discussed the remarks of Mr. Gorman. He said that the bill was not yet ready for introduction, and that he would have to wait until the next session of the Legislature. He also said that the revenue would be increased by the bill, but that the increase would be small. The opposition, however, is not satisfied with his reply, and they will take up Mr. Gorman's question again if he is not pleased with the result.

PRESIDENT FAURE KILLED.

Stricken at 6 o'clock, He Gradually Sank, Expiring at 10.

Appoplexy Was the Malady Premier Dupuy and other prominent men were summoned to the Palace and the President's condition was found to be very serious. He was taken to the Hotel de Ville, where he died at 10 o'clock. The cause of death was apoplexy.

Read a First Time.

Other bills which received their first reading were:—

Mr. Kribs—To amend the Registry Act and provide that registrars shall be appointed by the municipal council of the county or city, who must hold a certificate equal to a second-class non-professional certificate, receive a salary and make weekly returns of the fees to the municipal treasurer for the fees of the municipality.

Mr. Jornt—To amend the Assessment Act and provide that the assessment of property shall be made by the municipal council of the county, judge, the appellant shall deposit \$20 as security for costs.

Mr. McNish—To amend the Assessment Act by raising the exemption on personal earnings to an amount of \$1,000, and to lower the qualifications for municipal councillor to owners of property assessed at \$1,000 unencumbered or less.

Assembly Notes.

Hon. Mr. Dupuy received a deputation from Centre and East Wellington, who desired the Minister of Agriculture to settle a disagreement regarding land and district agricultural fair societies.

The Government has compromised with the Township of West Zorra regarding the cost of the recent municipal election. The Township of West Zorra has agreed to pay the cost of the election, and the Government has agreed to pay the cost of the election.

The County Council of York wants a law against trespassing persons who enter and loiter on houses of refuge; also that county council and not the municipal council be given control of rural electric railways. It has so petitioned.

His Statement at Quebec Is Now Being Followed Up.

In a Memorial to the Government at Ouelletville, New Brunswick, and "The Only Agency on Kath With Power to Carry on a Fast Line is the C.P.R.," He Says: "The Document Will Be Sent to All Senators and Members of Parliament."

Montreal, N. B., Jan. 10.—The following important dispatch has been received from Quebec:

At a meeting of the Board of Trade, held yesterday, the following was reported by the president:

"The president of the Canadian Pacific Railway was pleased to declare at a banquet, given in his honor by the citizens of Quebec, that the Canadian Pacific Railway Company was ready to start a mail and passenger service on the Atlantic, with terminal at Quebec in summer and Halifax in winter, that would surpass in comfort, speed and capacity all that exists or may be contemplated between Europe and the United States, and that the Canadian Pacific will have the honor of carrying the mail that had power and means to successfully carry out such an undertaking."

It was also made by Sir William Van Horne here, since been embodied in a memorial to the Hon. Sir Wilfrid Laurier, of the Hon. Sir John A. Macdonald. Copies of the memorial are also being sent to the Hon. Sir John A. Macdonald, the House of Commons and the Boards of Trade of the Dominion at

THE BOB THAT WON

West Huron Was Convinced Bob Holmes
Entered of the Clinton New Era
—The Returns.—

Clinton, Oct. 7, Feb. 22.—The great title of the "Bob" has been fought for and won, and it has been won by the man who was forgotten. All day it was exciting, but last night as the returns came in, the result was decided. The Town Hall was filled listening to the reports. The men at and only one or two ladies were present. From Goddard to pay tribute to his great friend Holmes. He was called to the platform. There for nearly an hour he addressed the audience.

Mr. Holmes himself made a good speech, in which he said that he had been elected in the present position M.P.

The Conservatives put up a great fight, but they were against them. They gave a great lot of evidence of where they were free; and the riding party would be opened up again. On the next night and in a general election there would carry planning.

Other countries have such magnificent timber resources as to be almost thought of as a part of the House, that the time had come for a still more vigorous policy in regard to the forests.

In conclusion, Mr. Petty once insisted on the necessity of better telephone communication for the development of the forests.

Mr. Jessop (Lincoln) spoke on economical times. Efficiency of the public service would be the keynote of the day. Economy practiced at the same time. He instructed the educational and agricultural departments to be economical.

He said that no unworked ore—gold, silver, iron, nickel—should be allowed to go to waste. He said that a vigorous mining policy would have to be the basis of banquets and banquets and the progress. This ought to have been achieved by a progressive Government. He said that the country was well defined thirty years ago.

Mr. Ellier (South Huron) moved the adjournment of the debate.

ASSEMBLY NOTES.

On Thursday Mr. Whitney will introduce a bill to amend the Ontario Electric Act.

The report of the provincial municipal auditor shows that during 1938 deficits

The Trades and Labor Council deputa- tion that waited on Hon. Mr. Davis to urge that boys and girls be sent from the city to the country, and that the law be changed to require that the boys be sent to the country, was met by the Provincial Secretary, who said that the Government was not in a position to do so. He said that in private homes, but he preferred putting them in Ontario homes instead of sending them to the country. He said that he could not be found for them here they would send them elsewhere, rather than hold them in the city.

Bonus Bill.

The municipal party are asking the Legislature for power to grant bonuses to the men who served in the war. The private bills committee yesterday, Hon. Mr. Gibson reads some strong criticism of the bill. He said that the law of 1912, instead of discouraging the practice, had resulted in the payment of bonuses to a large number of bonus boys, each of which had a few hundred dollars. There was the great question of how to get the money out of the treasury.

START YOUR SYSTEM

Against Rheumatism and Kidney Trouble.

TAKE KOOTENY CURE.

If you are tired, or have a pain in your back, shoulders, arms, legs, or back, you are surprised, as you have been so well all summer; but you forget that the system needs strengthening and preparation for the winter. The pains you now have are a demand from the organs of the body for a tonic, this will build you up, and enable you to throw off all the impurities you have been accumulating during the warm season.

Kooteny Cure is the remedy that will do this, and sworn testimony from all states, and all climates, the thousands published, will send you on application, FREE.

Wm. Wood-Rohrer, 43 Main st. West, Hamilton, Ont., says under oath, that he had Rheumatism during the winter of 1904, and followed great pains. He decided that he took Kooteny Cure, and was cured by its use, since which time, he has no fear of inclement weather, but looks forward with pleasure to each season of snow and ice.

He heartily recommends the medicine, which can be obtained from your druggist, or from THE S. B. CRYKMAN MEDICINE CO., LIMITED, HAMILTON, ONT.

...ing, and Robert Long, found that they came to their death as the result of an accident on the "Brighton" bridge here, through one freight train running into the rear end of another. From the evidence given we estimate that any time to any of the men compelling the crews of the two trains, but that some provision should have been made by the City of Winnipeg to prevent such an accident from occurring, either by having an operator at "Star" or "Brighton" bridge, or by having the full, under various circumstances, is certainly dangerous."

MR. CORBY AND
THE ELEVATOR.

To another column will be found a communication from H. Corby, Esq., M.P., which every taxpayer should read. It is regrettable that the ill-advised attack taken by a local contemporary should have the effect of discouraging Mr. Corby in his enterprise, and we trust that he will yet see his way clear to proceed on the lines previously indicated by him. If the City Council fails to pronounce unmistakably and emphatically in favor of the acceptance of his offer, it will be taking the responsibility of blighting an enterprise which promises great and numerous advantages to the City. It is safe to say that on this occasion, as is usually the case, The Ontario voices only the views of its proprietor, and that famous mathematical prodigy and renowned political economist, the Honorable Pingree Robinson, whose sole qualification for a position on our Council Board is the boast, with which he occasionally entertains the aldermen at the committee meetings, that he can weigh out five cents worth of mixed candies without giving one-half a candy over the legal weight. This eminent gentleman may dictate the editorial policy of The Ontario, but he will find to his cost that when he attacks Mr. Corby he is antagonizing the business element of this City, which has, with reason, the utmost confidence in Mr. Corby's public spirit and reputation for honorable dealing. The first offer made by Mr. Corby was a very favorable one: he took all the financial risk and the City to give him every encouragement possible. As he points out, the City stands to gain in any event. Our civic legislators will well merit universal ridicule for their shortsighted fatuity if they fail to use every endeavor to have Mr. Corby proceed.

MR. CORBY WRITES.

He Will Release City From

New Agreement if Any

Dissatisfaction

Exists.

A Dignified Rebuke to an Over-Hasty

Contemporary.

To the Editor of THE INTELLIGENCER.

Mr. Editor, I noticed an editorial in yesterday's issue of the Ontario ("An Over-hasty Step") reflecting on the action of the City Council in accepting without proper deliberation my offer to water

supply for new elevator. In making the offer to increase the capacity of elevator to 200,000 bushels, it was not without serious misgiving as to results, and was done more with a view of benefit to the City, than as a financial speculation. After reading those comments and in giving fuller consideration to my offer as to increase, I am convinced that I am undertaking far too much and that, as the old elevator will answer my own purposes, I prefer to release the City entirely from new arrangements, rather than go on and feel that any portion of the citizens should think that I had received any undue advantage. As I have only written the engineer for an estimate for plans and specifications, it is not too late, as I have wired him to do nothing until he hears further. I prefer, therefore, that the Council be called before at once and have the matter settled. Finding opposition of this kind almost before a start has been made, I feel that it is a serious question whether any public-spirited citizen should undertake in any way to try to raise business to this City. Should any other citizen come forward and undertake to do what I have offered, I am prepared personally to furnish him the power, either gas, water or steam, at my option, for ten horse power at my own expense for ten years, and turn over the elevator for the same money that I paid for it.

I remain,

Yours sincerely,

H. CORBY.

Belleville, Feb. 23, 1899.

MR. THOMPSON'S REPLY.

Mr. M. M. Thompson, Manager of the

Water Works Company, this afternoon

sent the following letter to the Ontario:

To the Editor of the Daily Ontario.

DEAR SIR,—In your editorial of yesterday my name appears as having given misleading information regarding the cost of power for elevator. My figures were based on actual amount paid for gas for running the Union Elevator for the last two years. I find, on reference to the Gas Company's books, that for the year 1897 the cost was \$10.63, and for 1898 \$20.75.

I find, on enquiry, that the grain landed the last year was between 40,000 and 60,000 bushels at this elevator, and was practically all that the farmers sold in the City.

You state that there are two prices charged for gas, so that if you are correct in your statement regarding gas, I am well within the limit in saying that for water for same services would not exceed \$15.00 to \$20.00 per annum.

Trusting you will give this the same publicity as your editorial.

I am,

Yours truly,

M. M. THOMPSON.

BAY BRIDGE TO BE TAXED

The Amelburg Authorities Intend to Assess One-Half of It.

The municipal authorities in Amelburg are alert and aggressive. Last evening Reeve Anderson informed THE INTELLIGENCER that as Reeve of the Township he had instructed the Assessor to assess one-half of the Bay Bridge and at the proper time the Township will demand payment of the taxes. The Reeve's contention is that the Bridge has been passed entirely into the hands of private individuals and has no right to be exempt. The sequel will be watched with interest.

The Council have also decided to tax telephone and telegraph poles within the limits of the municipality, and, if necessary, to take a test case into the courts, as they believe a previous decision in favor of the companies can be overturned.

A BIG TEXTILE FACTORY

To Be Built at the Falls and to Use the Cataract Power.

Buffalo, Feb. 28.—Alexander Morton & Co., of Darvel, Scotland, one of the great textile concerns of the world, is to build a great factory at Niagara Falls. It will use electric power from the plant to operate the factory. News was received in Buffalo yesterday morning that the Darvel company had closed contracts with the power company at the Falls, both for a site for the factory and for the power to run it.

Alexander Morton & Co., who manufacture carpets and other textile fabrics, have branches of their establishments in Ireland, Belgium and other countries.

THE MARKETS.

Liverpool Wheat Was Easy, But Chicago Showed Some Strength—Visible and Afloat—Wheat—Futures were easier yesterday, declining 1/4 to 3/8 cent on Saturday's close. Chicago, Feb. 28.—The wheat market showed early strength yesterday, with a small increase in the visible supply for the week, and talk of weather damage to American crop were the bull arguments.

As compared with a week ago, the visible supply of wheat in Canada and the United States has increased 1,000 bushels; that of corn has increased 600,000 bushels; and that of oats has increased 400,000 bushels. The visible supply of wheat in Canada and the United States is now 1,000,000 bushels.
